SUPPLYING ENERGY & INDUSTRY SINCE 1986

From a single spare to the whole list.

SLG Petrochemical is a British trading company that sources equipment and spare parts for operators and contractors across the Middle East and Africa. Take a competitive price ex works, or have us buy, inspect, document and ship a mixed list as one consignment. You choose how much of the job we do.

HOW YOU CAN BUY FROM US

Take the full service, or only the part you need

STANDARD

Supply ex works

Priced against your specification and offered ex works or free carrier from the manufacturer's or stockist's premises, ready for your forwarder.

ADD AS REQUIRED

Documentation and inspection

Material certificates and certificates of conformity with the goods. Third-party inspection arranged at additional cost where you or the destination require it.

ON REQUEST

Consolidated delivery

Lines from several manufacturers brought together and shipped as one consignment, with one set of papers, to the Incoterm you choose.

SECTORS

Four buying environments, one sourcing problem

Oil & Gas
Upstream, midstream and terminal equipment, from pipeline valves and metering to rig spares and wellsite supply.

Petrochemical & Refining
Process equipment, rotating machinery and turnaround spares, against tag lists and fixed shutdown windows.

Power & Utilities
Generation, transmission and distribution equipment and station spares, including equivalents for obsolete items.

Industrial & Infrastructure
Water, general industry, plant and machinery, fleets, MRO consumables, and site and camp support.

WHERE WE OPERATE

Based in the UK, supplying the Middle East and Africa

We buy and contract from the United Kingdom, sourcing from manufacturers in Europe, the Gulf, Asia and the Americas. Our customers are operators and contractors across the Middle East and Africa, from the Gulf and North Africa to West and East Africa. We work with local partners where a market calls for it, and every order is contracted with SLG in the United Kingdom.

SINCE 1986

Forty years in one trade

Established in England in 1986, the company began by representing Italian manufacturers of valves, piping and fabricated process equipment, and has supplied into some of the largest energy projects in North and West Africa, the Gulf, Central Asia and India. Selected projects include In Amenas and In Salah (Algeria), Damietta LNG (Egypt), Pearl GTL (Qatar), Jamnagar (India), Karachaganak and Tengiz (Kazakhstan). In 2026 SLG sharpened its focus on the Middle East and Africa and extended its range to pumps and rotating equipment, instrumentation, power, industrial and site supply.

ENQUIRIES

Send us a requirement

Give us the item or specification, the quantity, the delivery point and the date you need it. We acknowledge every enquiry within one working day.

enquiries@slgpetrochemical.com

WHAT WE SUPPLY

Bought to your specification

Every line we quote is bought against the specification on your enquiry, from a manufacturer able to meet it. Standards shown are typical examples; code-stamped and API-monogrammed items are supplied only from manufacturers holding a current ASME Certificate of Authorization or API Monogram licence for that product.

API 6D · API 600 **Valves & actuation**	API 610 · 617 · 682 **Pumps & rotating equipment**	API 5L · ASME B16.5 · B16.9 **Piping, fittings & flanges**
Tag list · datasheet **Instrumentation & metering**	IEC · ATEX / IECEx **Electrical & power equipment**	ASME VIII · TEMA **Process equipment & packages**
EN 54 · NFPA **Safety, fire & PPE**	MRO **MRO tools & consumables**	Treatment · injection **Water treatment**
HVAC **HVAC & refrigeration**	EN 13414 · ASME B30 **Plant, lifting & handling**	Site support **Site, camp & facilities**
Make · model · serial no. **Rig spares & wellsite supply**	VIN · part number **Vehicles & fleet spares**	SDS · ISO VG **Lubricants & chemicals**

DOCUMENTATION & QUALITY

The paperwork is part of the goods

- Material certificates to EN 10204 (type 2.2, 3.1 or 3.2) as the order specifies, passed on unaltered from the manufacturer
- Inspection and test plans, manufacturer's data records and NACE MR0175 / ISO 15156 compliance where specified
- Certificates of origin certified and legalised where required; ACI, SABER and PVoC filings and certificates
- Third-party inspection at additional cost; every line expedited against the quoted dates
- Documents checked against the goods and the order before release; export packing and marking to your purchase order

COMPLIANCE

Screened before we buy

- Screening against UK, UN, EU and US sanctions lists on every order
- Controlled goods supplied only under the export or trade control licences required; US export controls applied to US-origin items and to foreign-made items with controlled US content
- Know-your-customer checks on every new counterparty
- Anti-bribery procedures under the UK Bribery Act 2010
- End-use and end-user statements where the goods require them

COMMERCIAL TERMS

Terms in plain English

Delivery	Ex works or FCA as standard, Incoterms® 2020; CIP or DAP to site, CIF for sea freight and other terms on request, with the named place on every quotation.
Payment	Letter of credit, cash against documents or open account (subject to credit approval), agreed per order.
Currency	US dollars or sterling.
Warranty	Against defects in materials and workmanship, typically 12 months from delivery, with the benefit of the manufacturer's warranty passed on.
Site work	Installation, commissioning and training lined up through qualified local contractors on request.

FOR MANUFACTURERS

More of your products into the Middle East and Africa

We source for operators and contractors across the region, and can include manufacturers' products in the requirements we price. We can also provide sales support or agree representation, distribution or regional arrangements, set out in writing, where the fit is right. Talk to us at enquiries@slgpetrochemical.com.
